

# Admin Compliance Dashboard

The Admin Compliance Dashboard gives a quick overview of the versioning process. It enables administrators to review the number of compliant and non-compliant learners and the number of learners who received the correct training version. With Admin Compliance Dashboard, you can check the effectiveness of training programs, versioning processes, and overall compliance so that the learners are assigned the correct training version at the right time.

The Admin Compliance Dashboard has the following features:

- It displays the pass versus fail percentage for Curriculum, Material, and Online Course versioning and assignment.
- It details failed Curricula, Materials, and Online Courses for versioning and assignment on the flyouts.
- It contains a link to the Versioning Dashboard page to investigate failed assignment details.
- It includes breadcrumbs for ease of navigation.

To access the Admin Compliance Dashboard, go to [ADMIN > TOOLS > LEARNING > ADMIN COMPLIANCE DASHBOARD](#).

**Note:** Viewing the Admin Compliance Dashboard in the Desktop application is advisable.
