

Permissions for Learning

This page contains permissions that may apply to organizations using the Learning solution.

Connect Permissions (Old Connect)

PERMISSION NAME	PERMISSION DESCRIPTION	CATEGORY
Connect - View	Enables users to access Connect live feed and profile screens. This is an end user permission. Note: This permission applies to the legacy version of Connect.	Connect
Connect Administration	Grants access to create, edit and delete Connect topics, including designating topic moderators, topic availability and posting types allowed within topics. This is an administrator permission. Note: This permission applies to the legacy version of Connect.	Connect - Administration
Connect Community Management	Enables users to manage Connect communities for which they are designated leaders. This permission should be included in the Connect Community Leader security role, which is dynamically assigned to users who are designated as leaders to one or more Connect communities. Note: This permission applies to the legacy version of Connect.	Connect
Connect Preferences - Manage	Enables users to configure Connect preferences. This is an administrator permission. Note: This permission applies to the legacy version of Connect.	Connect - Administration
Connect Topic Expert	Enables users to answer questions in Connect topics for which they are a designated expert. This permission should be included in the Connect Topic Expert security role, which is dynamically assigned to users who are designated as "experts" for one or more Connect topics. Note: This permission applies to the legacy version of Connect.	Connect
Connect Topic Management	Enables users to manage Connect topics which they are designated moderators. This permission should be included in the Connect Topic Moderator security role, which is dynamically assigned to users who are designated as "moderators" for one or more Connect topics. Note: This permission applies to the legacy version of Connect.	Connect
Connect User Search	Use of this permission enables you to constrain the people search results within Connect. Without adding a constraint, this permission has no impact to the user. If constrained however, the people found in a Connect search will be limited accordingly. Note: This permission applies to the legacy version of Connect.	Connect
MyTeam Connect Profile - Manage	Allows manager to view limited Connect data for their direct and indirect reports (or others depending on constraints) via the MyTeam screen. This permission can be constrained by OU, User's OU, User's Direct Reports, User, and User Self and Subordinates. The permission constraints determine for which users the Connect link is available when viewing a user in My Team.	Connect
