

Learning > Transcript > Curriculum Player

Curriculum Player Overview

The Curriculum Player enables users to launch and complete learning objects (LOs) within a curriculum. The Curriculum Player guides users through the curriculum sections and allows users to track their progress.

Deprecation Note: Starting in the November 2025 release, Curriculum Player 2.0 will become the default player for all curricula, replacing the legacy Curriculum Player.

The Curriculum Player can be opened for a curriculum in the following ways:

- From the LO Details page for the curriculum, click **Open Curriculum**. [See Learning Details Page](#) .
- From the Transcript, click the **Open Curriculum** option for the appropriate curriculum.
