

Create Learning Assignment - Setup

On the Setup page of the learning assignment tool process, enter general information for the new learning assignment and select the training that will be assigned to users.

To begin creating a new learning assignment, go to [Admin > Tools > Learning](#) and click the **Assignment Tool** link. From the Manage Learning Assignments page, click the **Create Assignment** button.

Permissions

PERMISSION NAME	PERMISSION DESCRIPTION	CATEGORY
Assignment Tool - Restrict to Users' LO Availability	This permission does not grant ability to any specific functionality and can only be constrained by Users' LO Availability. If this permission is constrained, then the user creating the Learning Assignment can only select and assign training that is within the user's own availability. This permission is dependent on the Assignment Tool - Standard, Assignment Tool - Standard and Dynamic, and Assignment Tool - Standard and Dynamic - Recurrence permissions. This is an administrator permission.	Learning - Administration
Assignment Tool - Standard and Dynamic - Recurrence	Grants ability to create Standard (one-time) and Dynamic (continuous) Learning Assignments to directly assign training to users. Also grants ability to enable/disable Recurrence when creating a Dynamic Learning Assignment. This permission can be constrained by OU, Provider, Training Item, Training Type, User, User Self and Subordinates, and User's OU. If this permission is constrained by Location, Provider, Training Type, or Training Item, then they can only assign training within the constraints. If this permission is constrained by OU, User, User Self and Subordinates, or User's OU, then they can only assign to users within the constraints and view assignments created by users within the constraints. This is an administrator permission.	Learning - Administration
Assignment Tool - Standard and Dynamic	Grants ability to create Standard (one-time) and Dynamic (continuous) Learning Assignments to directly assign training to users. This permission can be constrained by OU, Provider, Training Item, Training Type, User, User Self and Subordinates, and User's OU. If this permission is constrained by Location, Provider, Training Type, or Training Item, then they can only assign training within the constraints. If this permission is constrained by OU, User, User Self and Subordinates, or User's OUthen they can only assign to users within the constraints and view assignments created by users within the constraints. This is an administrator permission.	Learning - Administration
Assignment Tool - Standard	Grants ability to create Standard (one-time) Learning Assignments to directly assign training to users. This permission can be constrained by OU, Provider, Training Item, Training Type, User, User Self and Subordinates, and User's OU. If this permission is constrained by Location, Provider, Training Type, or Training Item, then they can only assign training within the constraints. If this permission is constrained by OU, User, User Self and Subordinates, or User's OUthen they can only assign to users within the constraints and view assignments created by users within the constraints. This is an administrator permission.	Learning - Administration
Assignment Tool - Dynamic Reassignment	Grants ability to enable/disable Dynamic Re-assignment for an assignment after submission. When Dynamic Re-assignment is enabled, users that meet the User Criteria again (after previously being dynamically removed) are re-assigned. This permission is dependent on the Assignment - Standard, Dynamic - Standard and Dynamic, and Dynamic Assignment - Standard and Dynamic - Recurrence permissions. This permission cannot be constrained. This is an administrator permission.	Learning - Administration
Assignment Tool Preferences	Grants access to Assignment Tool Preferences where an administrator can activate the new Assignment Tool and configure the processing options and settings to create Learning Assignments. This permission cannot be constrained. This is an administrator permission.	Learning - Administration
