

Search Filter Q

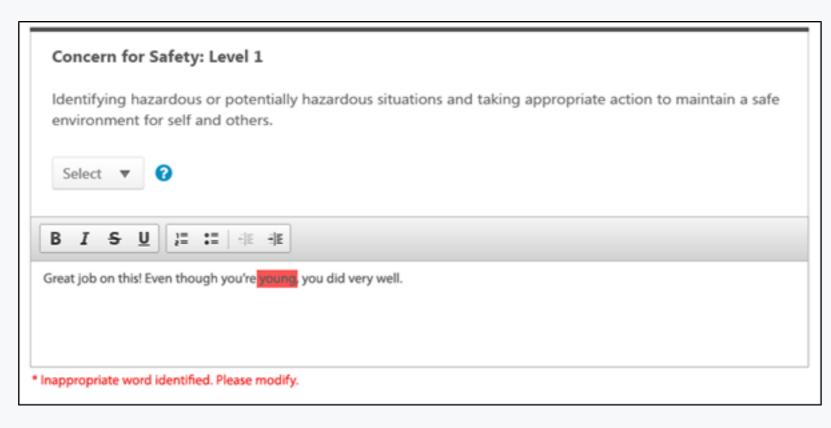

Performance > Reviews > End User Review Tasks > Performance Review Task - Components > Inappropriate Language

Performance Review - Inappropriate Language

If the Inappropriate Word Filter is enabled for performance reviews, the filter flags any inappropriate words contained in the Comment field.

Validation occurs when you click the **Save And Continue** button on a performance review page. When a word is flagged as inappropriate, the word is highlighted. The inappropriate word must be corrected before you can submit the review.

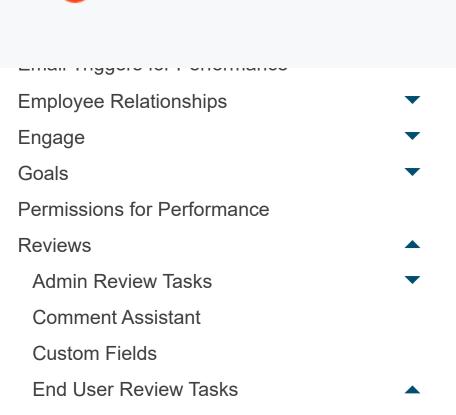

Administrators configure this filter in Writing Tools Administration. See Writing Tools Overview.
